**LCL EXPORT ADVISORY - Recovery Adjustment Surcharge**

Dear Valued Customer,

Our industry is experiencing unprecedented challenges as the result of the outbreak of the Coronavirus (COVID-19). The resulting impact is causing severe disruptions and uncertainty to ocean transportation and supply chains.

Carriers continue to add blank sailings which is affecting container flows leading to a shortage of equipment in many locations. This disruption will most likely result in increased costs associated with managing cargo and equipment.

As a result of this uncertainty and the potential escalating costs, ECU Worldwide is announcing a Recovery Adjustment surcharge.

*From the Identified Origins Below to Ports and Points Served via Below Destinations*

Origin	Destination Region	New Charge	Increase Amount	Cargo Received on or after
All U.S Origins	All Worldwide Destinations	Recovery Adjustment Surcharge	\$10 w/m - min \$10	<b>April 2nd 2020- postponed until April 20th 2020</b>

\* Transshipment cargo will also be subject to these increases. In the event further information is required, please contact your local ECU Worldwide USA office.

ECU Worldwide will continue to monitor the situation and work with our partners and vendors to minimize disruptions. We will also share any relevant updates as they become available.

ECU Worldwide is appreciative of your continuous support and we will strive to provide you, our valued customers, with as much assistance as possible during these challenging times.

Feel free to contact your local ECU Worldwide office should you have any additional questions.

We appreciate your continued support and understanding of these increases in order for us to keep providing you reliable international transportation services
