NEWSMAILING: CURRENT AIRFREIGHT SITUATION IN GERMANY

Dear air freight customer,

In our efforts to manage the coronavirus situation in the coming period and to continue to provide you with the best possible service, we would like to point out once again that we are still serving most destinations in our network this week.

Our Import & Export services are at your full disposal.

In the last days some airline schedules have become more and more unpredictable. Airports are being closed as governments restrict flights and passenger flows. We expect this trend to continue but also expect airlines to go for contingency plans converting passage planes to be used for air cargo only. Please let us know your requirements.

We will of course keep you informed of all future developments.

Yours sincerely,

Hamburg Airport Team
