MESSAGE TO ECU-NETWORK: UKRAINE MILITARY ACTIVITIES

Due to the escalation of military conflict we have paused execution of shipping orders to and from Ukraine. To the best of our knowledge our partners and vendors are not directly affected.

All services to and from Ukraine are halted for the time being.

Groupage service to/from Russia (St. Petersburg), Poland (Gdynia) and Baltics (Riga) remains in operation. On-carriages (groupage service to other CIS countries via our hubs) into Russia, Belarus and CIS countries are continued but all lead time indications are suspended. Please be aware that the conflict also has the potential to affect consignments to and from other eastern European countries.

We have taken inventory of all shipments in transit to Ukraine and we are working on contingency plans for a number of different scenarios, and will inform you individually in respect to your shipment(s).

If you have ongoing or planned shipments to or from Ukraine, Russia or Belarus, please do not hesitate to contact our transshipment offices in Hamburg, Riga, Gdynia and St. Petersburg by the usual points of contact.

Our thoughts are with the people in Ukraine. We are observing the situation closely, are in constant exchange with our CEE teams and will keep you posted about any major changes of the situation.
